Copyright

Submission of a manuscript implies: that the work described has not been published before (except in the form of an abstract or as part of a published lecture, review, or thesis); that it is not under consideration for publication elsewhere; that its publication has been approved by all coauthors, if any, as well as by the responsible authorities at the institute where the work has been carried out; that, if and when the manuscript is accepted for publication, the authors agree to automatic transfer of the copyright to the publisher; and that the manuscript will not be published elsewhere in any language without the consent of the copyright holders.

All articles published in this journal are protected by copyright, which covers the exclusive rights to reproduce and distribute the article (e.g., as offprints), as well as all translation rights. No material published in this journal may be reproduced photographically or stored on microfilm, in electronic data bases, video disks, etc., without first obtaining written permission from the publisher.

The use of general descriptive names, trade names, trademarks, etc., in this publication, even if not specifically identified, does not imply that these names are not protected by the relevant laws and regulations.

While the advice and information in this journal is believed to be true and accurate at the date of its going to press, neither the authors, the editors, nor the publisher can accept any legal responsibility for any errors or omissions that may be made. The publisher makes no warranty, express or implied, with respect to the material contained herein.

Special regulations for photocopies in the USA: Photocopies may be made for personal or in-house use beyond the limitations stipulated under Section 107 or 108 of U.S. Copyright Law, provided a fee is paid. This fee is US $ 0.20 per page, or a minimum of US $ 1.00 if an article contains fewer than five pages. All fees should be paid to the Copyright Clearance Center, Inc., 21 Congress Street, Salem, MA 01970, USA, stating the ISSN 0025-3162, the volume, and the first and last page numbers of each article copied. The copyright owner's consent does not include copying for general distribution, promotion, new works, or resale. In these cases, specific written permission must first be obtained from the publisher.

Contents

Albright RG → Thom RM
Alderslade P → Lohuis M ten
Alongi DM → Riddle MJ
Ambrogi R: Secondary production of *Prionospio caspersi* (Annelida: Polychaeta: Spionidae) 437
Anderson DM, Kulis DM, Sullivan JJ, Hall S, Lee C: Dynamics and physiology of saxitoxin production by the dinoflagellates *Alexandrium* spp. 511

Babcock R: Reproduction and development of the blue coral *Heliopora coerulea* (Alcyonaria: Coenothecalia) 475
Båmstedt U, Håkanson JL, Brenner-Larsen J, Björnsen PK, Geertz-Hansen O, Tiselius P: Copepod nutritional condition and pelagic production during autumn in Kosterfjorden, western Sweden 197
Bartels-Hardege HD → Hardege JD
Barthélémy L → Sébert P
Batchelder HP, Swift E, Van Keuren JR: Pattern of planktonic bioluminescence in the northern Sargasso Sea: seasonal and vertical distribution 153
Belcheva NN → Evtushenko ZS
Berggreen UC → Hansen B
Bianchini A, Gilles R: Cyclic AMP as a modulator of NaCl transport in gills of the euryhaline Chinese crab *Eriocheir sinensis* 191
Björnsen PK → Båmstedt U
Bodungen B von → Lampitt RS
Bosch I, Pearse JS: Developmental types of shallow-water asteroids of McMurdo Sound, Antarctica 41
Brazeau DA, Lasker HR: Sexual reproduction and external brooding by the Caribbean gorgonian *Briareum asbestinum* 465
Brenner-Larsen J → Båmstedt U
Buhler DR → Schlenk D
Burton HR → Gibson JAE
Byrne M: Annual reproductive cycles of the commercial sea urchin *Paracentrotus lividus* from an exposed intertidal and a sheltered subtidal habitat on the west coast of Ireland 275

Campbell AK, Herring PJ: Imidazolopyrazine bioluminescence in copepods and other marine organisms 219
Carpenter RC: Mass mortality of *Diadema antillarum*. I. Long-term effects on sea urchin population-dynamics and coral reef algal communities 67
Carpenter RC: Mass mortality of *Diadema antillarum*. II. Effects on population densities and grazing intensity of parrotfishes and surgeonfishes 79
Carré C → Carré D
Carré D, Carré C: Complex reproductive cycle in *Eucheilota paradoxica* (Hydrozoa: Leptomedusae): medusae, polyps and frustules produced from medusa stage 303
Castello HP → Pascoe PL
Catalano E → Vitturi R
Childress JJ → Page HM
Clarke MR → Rodhouse PG
Conlin BE → Hunte W
Conlin BE → Marsden JR
Coste B → Raimbault P
Creese RG, Schiel DR, Kingsford MJ: Sex change in a giant endemic limpet, *Patella kermadecensis*, from the Kermadec Islands 419

Dalley DE → McClatchie S
Daniels D → Schöttler U
Dayton PK → Riddle MJ
Duke NC → Robertson AI

Eilertsen HC → Hansen B
Emig CC: Examples of post-mortality alteration in Recent brachiopod shells and (paleo)ecological consequences 233
Emson RH → Mladenov PV
